Project Details

Gateway Communications owns and operates one of the largest and most advanced pan-African telecommunications network. We support Africa's leading mobile operators and ISPs, and enable the world's largest telecoms companies and multinational businesses to connect into, and within, the African continent.

Our focus on a sophisticated, hybrid approach to connectivity combines fibre, satellite, microwave and wireless services. Along with expert local knowledge and a genuine passion for what we do, we can deliver a tailored, high-quality, cost-effective solution for every customer.

We have delivered successfully for the following technologies :
