Team Worked	: Europe/UK

Project Details

DrugDev is a family of technology driven solutions that help investigators, sponsors, and CROs do more trials together.

DrugDev brings together the largest active network of clinical trial sites, the leading investigator identification and start-up platform, the industry's best trial optimization system and the most experienced grants payment management provider to transform the way drug developers find, engage and pay investigators to run clinical trials. DrugDev is also the host of the Investigator Databank, a global collaboration between Janssen, Lilly, Merck, Pfizer and Novartis (with more companies to come) to share investigator information that each company has on file with one another

We have delivered successfully for the following technologies :

Clinical & Health Care Industries clients:

- Application development technologies
- Data Warehousing BI/BW solutions
- Mobile Development Applications
